DESCRIPTION

Trigono Bench is an innovative combination of architectural concrete and wood.

This bench suits both open urban spaces and closed modern interiors. Trigono is a **stylish**, stable but also extremely proportional bench, so it does not make an impression of being massive or hard. Spatial, subtle form enclosed in a concrete base makes it look elegant, while noble materials correspond perfectly with each other. The biggest advantages of **concrete bench** Trigono **without backrest** are its minimalism and simple design. The possibility of choosing the color of the wood and concrete gives our bench more individual character. Decide which Trigono suits you most!
